

DIWAKAR

Python Backend Developer | Full Stack Developer | AI & Data Science

India | +91 XXXXX XXXXX | diwakar.dev@example.com | linkedin.com/in/diwakar | github.com/diwakar

PROFESSIONAL SUMMARY

Computer Science and Engineering student specializing in Data Science with hands-on experience in Python backend development, REST API development, AI integration, data analytics, and full-stack web applications. Proficient in Python, Flask, FastAPI, React, MongoDB, SQL, Git, and Gemini AI. Experienced in building secure JWT authentication, resume parsing, ATS analysis, skill-gap detection, career recommendation systems, and data-driven analytics applications. Strong foundation in software engineering, machine learning, and database systems.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL, HTML5, CSS3
Backend	Flask, FastAPI, REST APIs, JWT Authentication, CRUD, API Integration
Frontend	React, Vite, Tailwind CSS, Axios
Databases	MongoDB, MySQL, PostgreSQL, SQLite
AI / Data	Gemini AI, Machine Learning, NLP, Pandas, NumPy, scikit-learn
Tools	Git, GitHub, VS Code, Postman, Node.js, Docker

PROJECTS

CareerOS AI — Student Career & Skill Gap Analyzer

Tech: Python, Flask, React, Vite, Tailwind CSS, MongoDB, JWT, Gemini AI

• Developed a full-stack AI career platform that parses PDF/DOCX resumes, calculates ATS scores, matches skills to target roles, identifies skill gaps, generates personalized learning roadmaps, recommends careers, estimates salary ranges, and provides a Gemini-powered AI Career Mentor with persistent chat history.

Retail Customer Analytics Platform

Tech: Python, FastAPI, MongoDB, Pandas, NumPy, React

• Built a file-upload analytics platform that processes retail datasets and generates sales, revenue, profit, customer, and product insights. Implemented REST APIs, database persistence, data validation, CRUD operations, and analytics workflows.

AI Resume ATS Analyzer

Tech: Python, Flask, NLP, scikit-learn, MongoDB

• Created an ATS-focused resume analysis system that extracts structured candidate information, compares skills and keywords against target roles, calculates weighted ATS scores, and generates actionable resume improvement recommendations.

EDUCATION

B.Tech / B.E. — Computer Science & Engineering (Data Science) | 3rd Year | India

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Machine Learning, Artificial Intelligence, Statistics, Operating Systems, Computer Networks

CERTIFICATIONS

• Cisco — Data Analytics Essentials • Python for Data Science • Generative AI Fundamentals • MongoDB Basics for Developers

EXPERIENCE / PRACTICAL EXPERIENCE

Backend & AI Development — Academic / Project Experience | Python, Flask, FastAPI, MongoDB, React

• Designed modular REST APIs with JWT authentication, password hashing, MongoDB CRUD operations, validation, and error handling. • Integrated Gemini AI for skill-gap analysis, career recommendations, personalized roadmaps, and conversational career mentoring. • Built frontend-backend integrations using React and Axios and tested APIs using Postman. • Used Git and GitHub for version control and collaborative project development.

ACHIEVEMENTS & ADDITIONAL

• Participated in a 24-hour hackathon focused on AI-powered student career guidance. • Built projects spanning AI, data analytics, backend engineering, and full-stack development. • Interests: AI Engineering, Backend Systems, Data Science, Machine Learning, and Software Development.

ATS testing note: This resume uses standard headings, keyword-rich content, simple text structure, and no tables for critical resume content. Replace placeholder contact details with your real information before professional use. ATS score depends on the target job description and analyzer configuration; no resume can be guaranteed to score 90+ for every job.
